

The London Mural Company

Murals for any space, any size, any surface, interior and exterior.

Introduction

Who we are

Creative problem solvers

Founded by Illustrator and Artist Stewart Chromik in 2015, The London Mural Company has steadily grown into a core team of highly experienced designers and creatives.

Combining with Accent London Creative Consultancy in 2017 our portfolio has steadily grown.

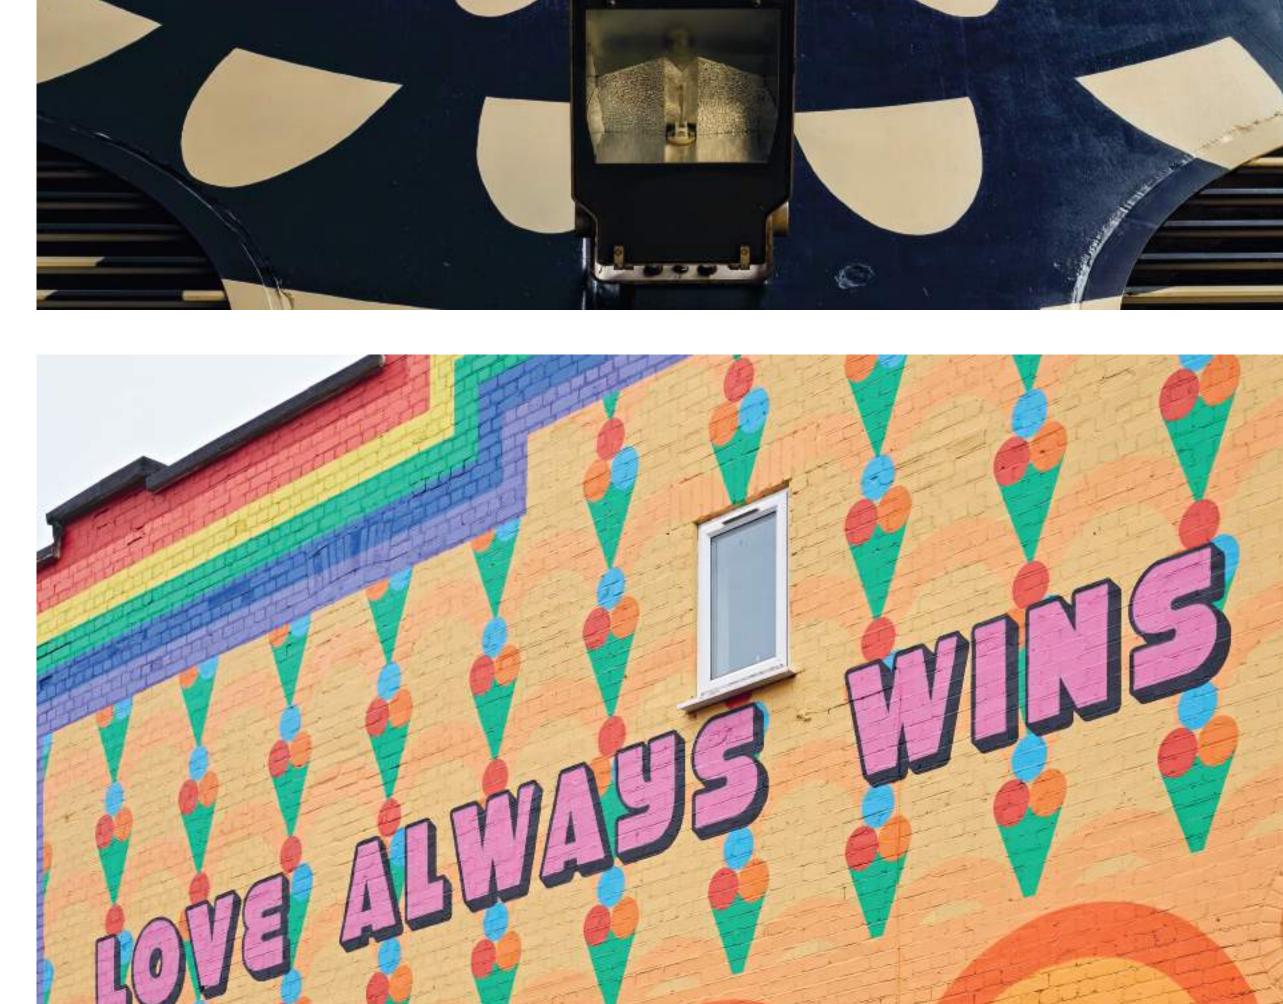

Our core aim is to provide our clients with original and bespoke artwork to the highest possible standards. We have collaborated with independent artists, design studios, architects and councils, developing ideas, pushing creative boundaries and producing artwork that has transformed and reflected the personality of many spaces.

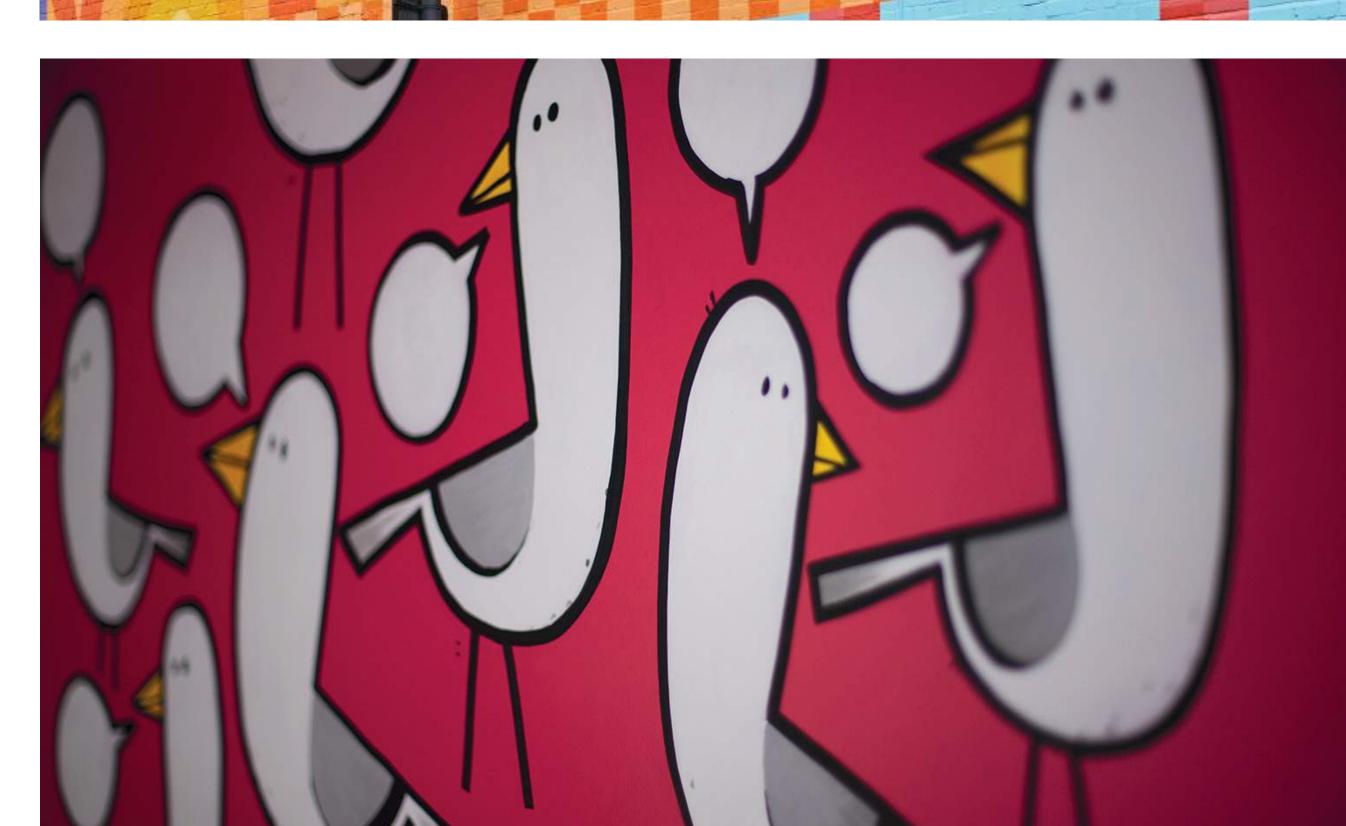

We have completed two of Britain's largest mural projects (The Towner Art Gallery 2019 and Aberfeldy Street Poplar 2020) and continue to collaborate with some of London and Europe's leading and emerging artists.

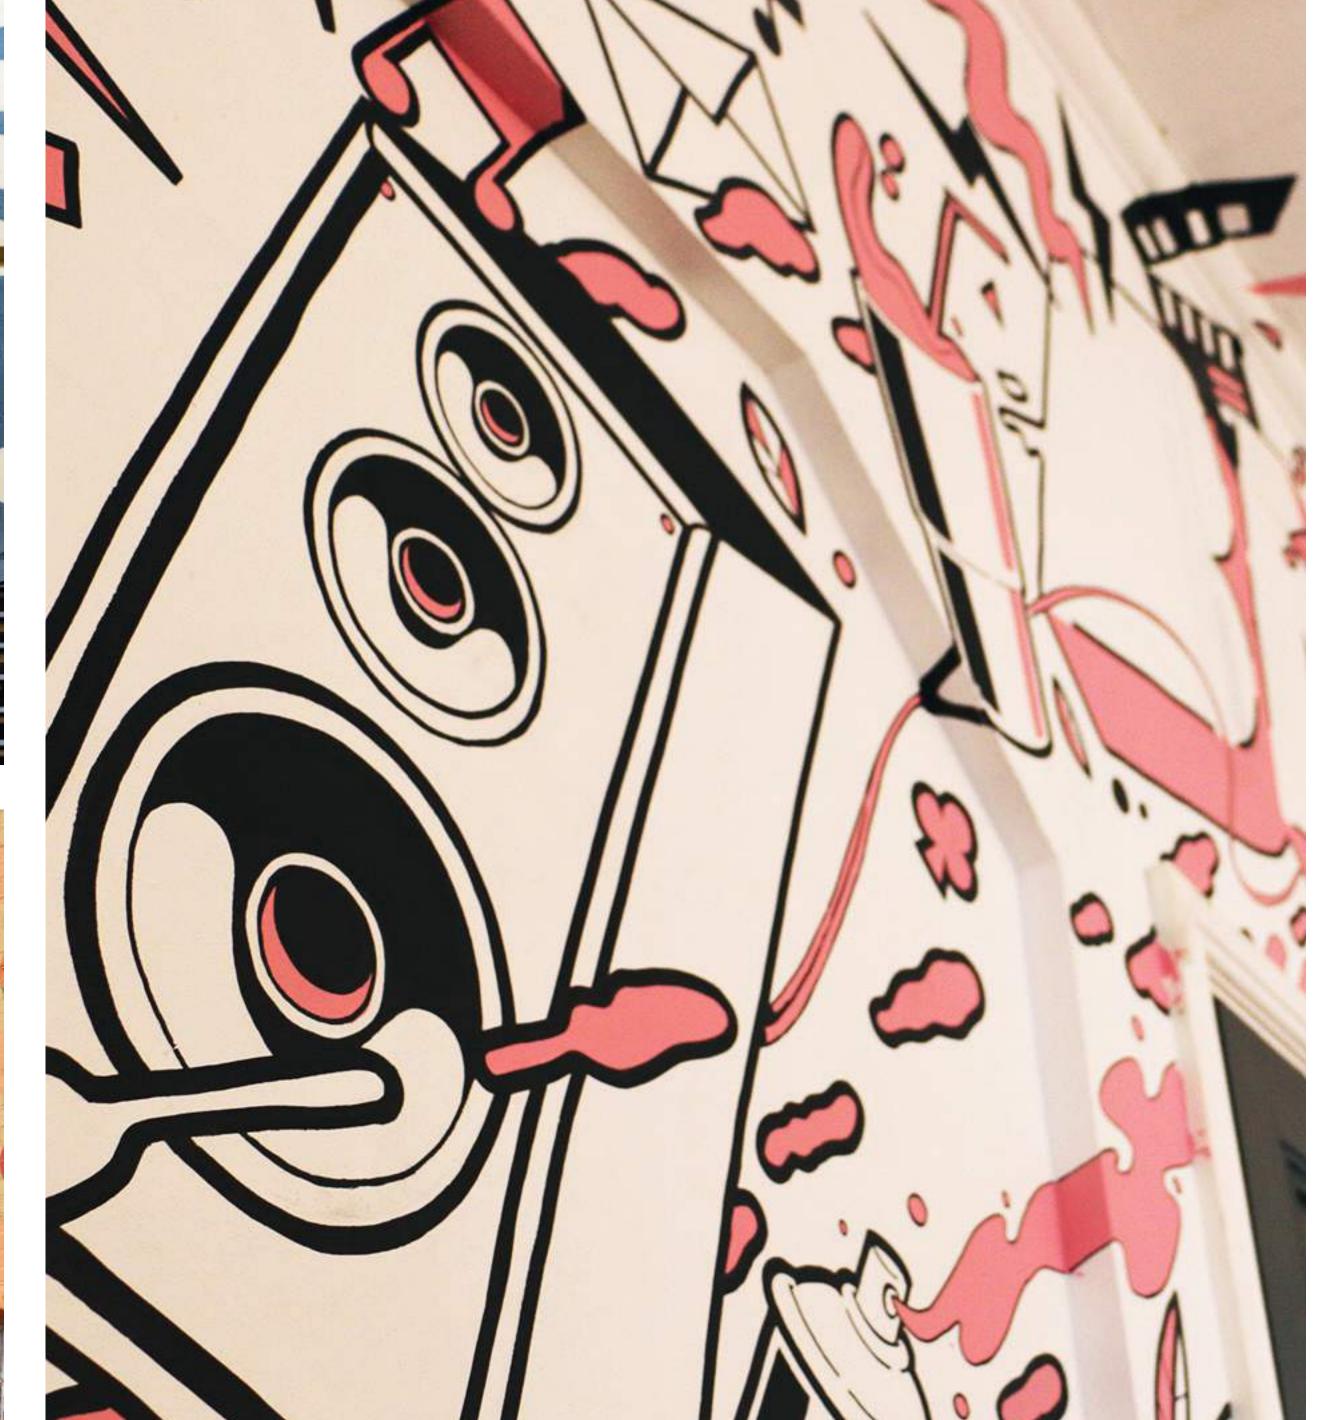

Our list of clients includes companies such as Wework, Facebook, Peabody, P&G, Unilever and Sony.

We're confident that we can meet any brief or proposal with a wide range of styles, direction and professionalism from start to finish.

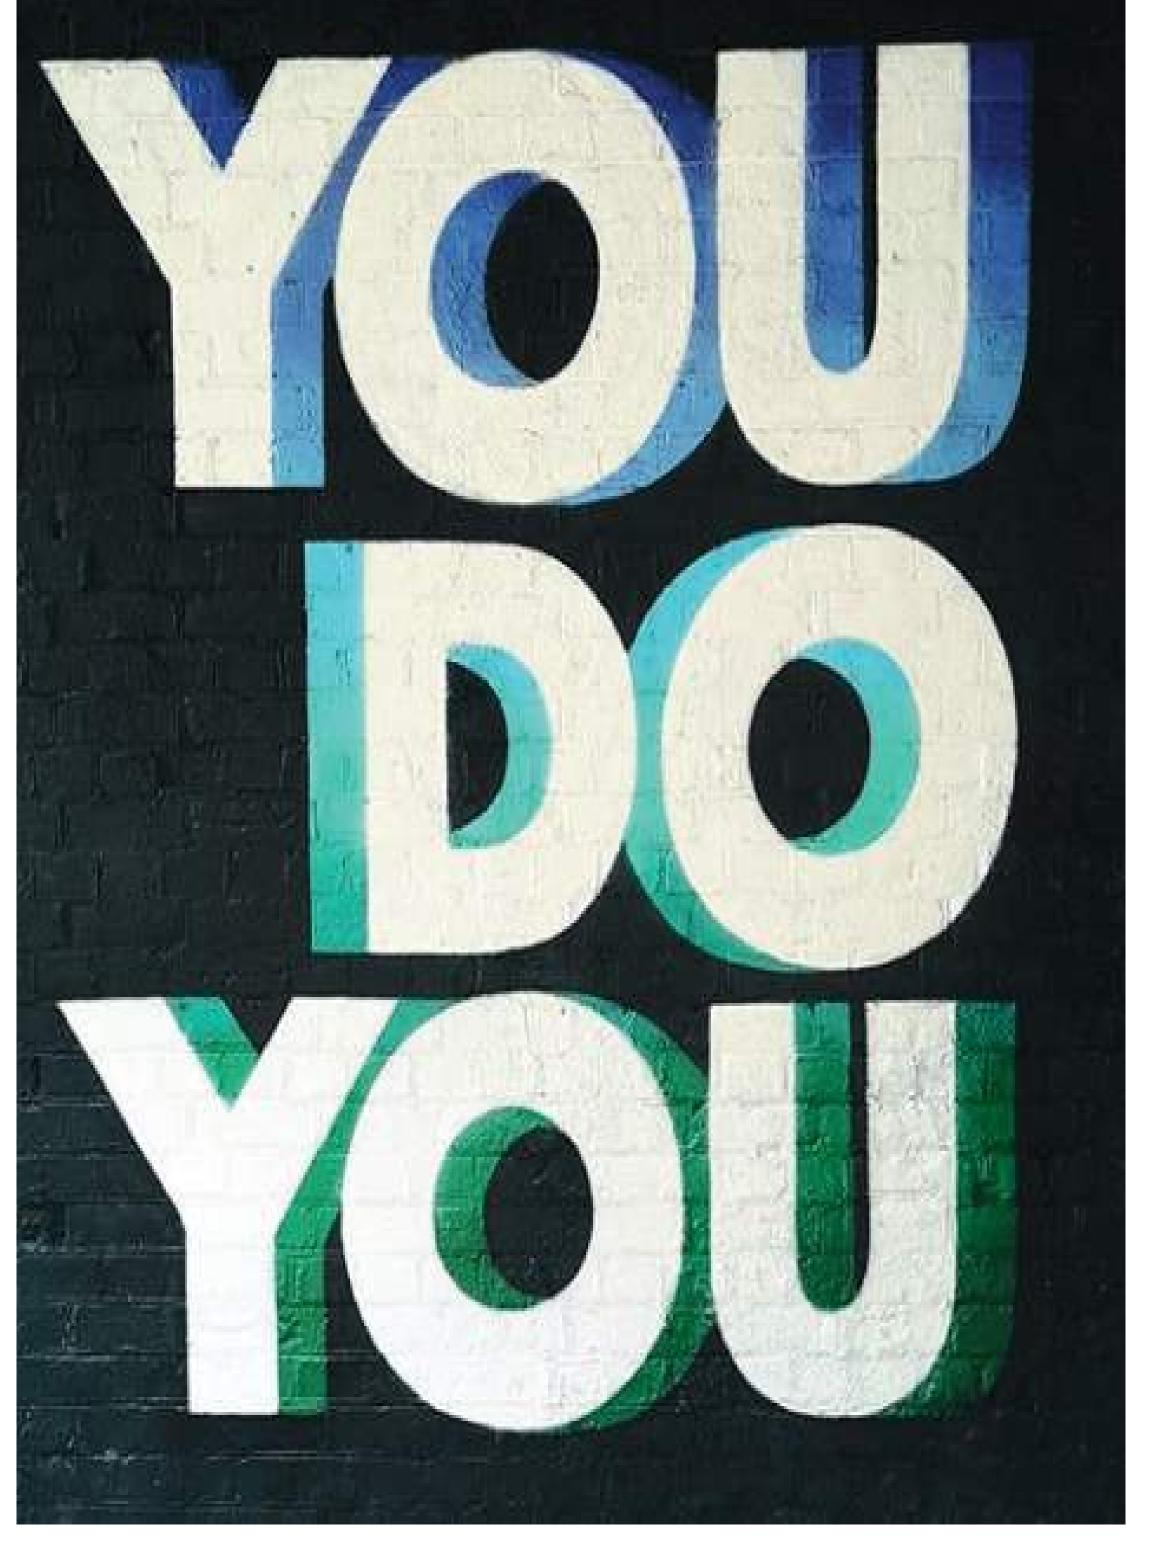

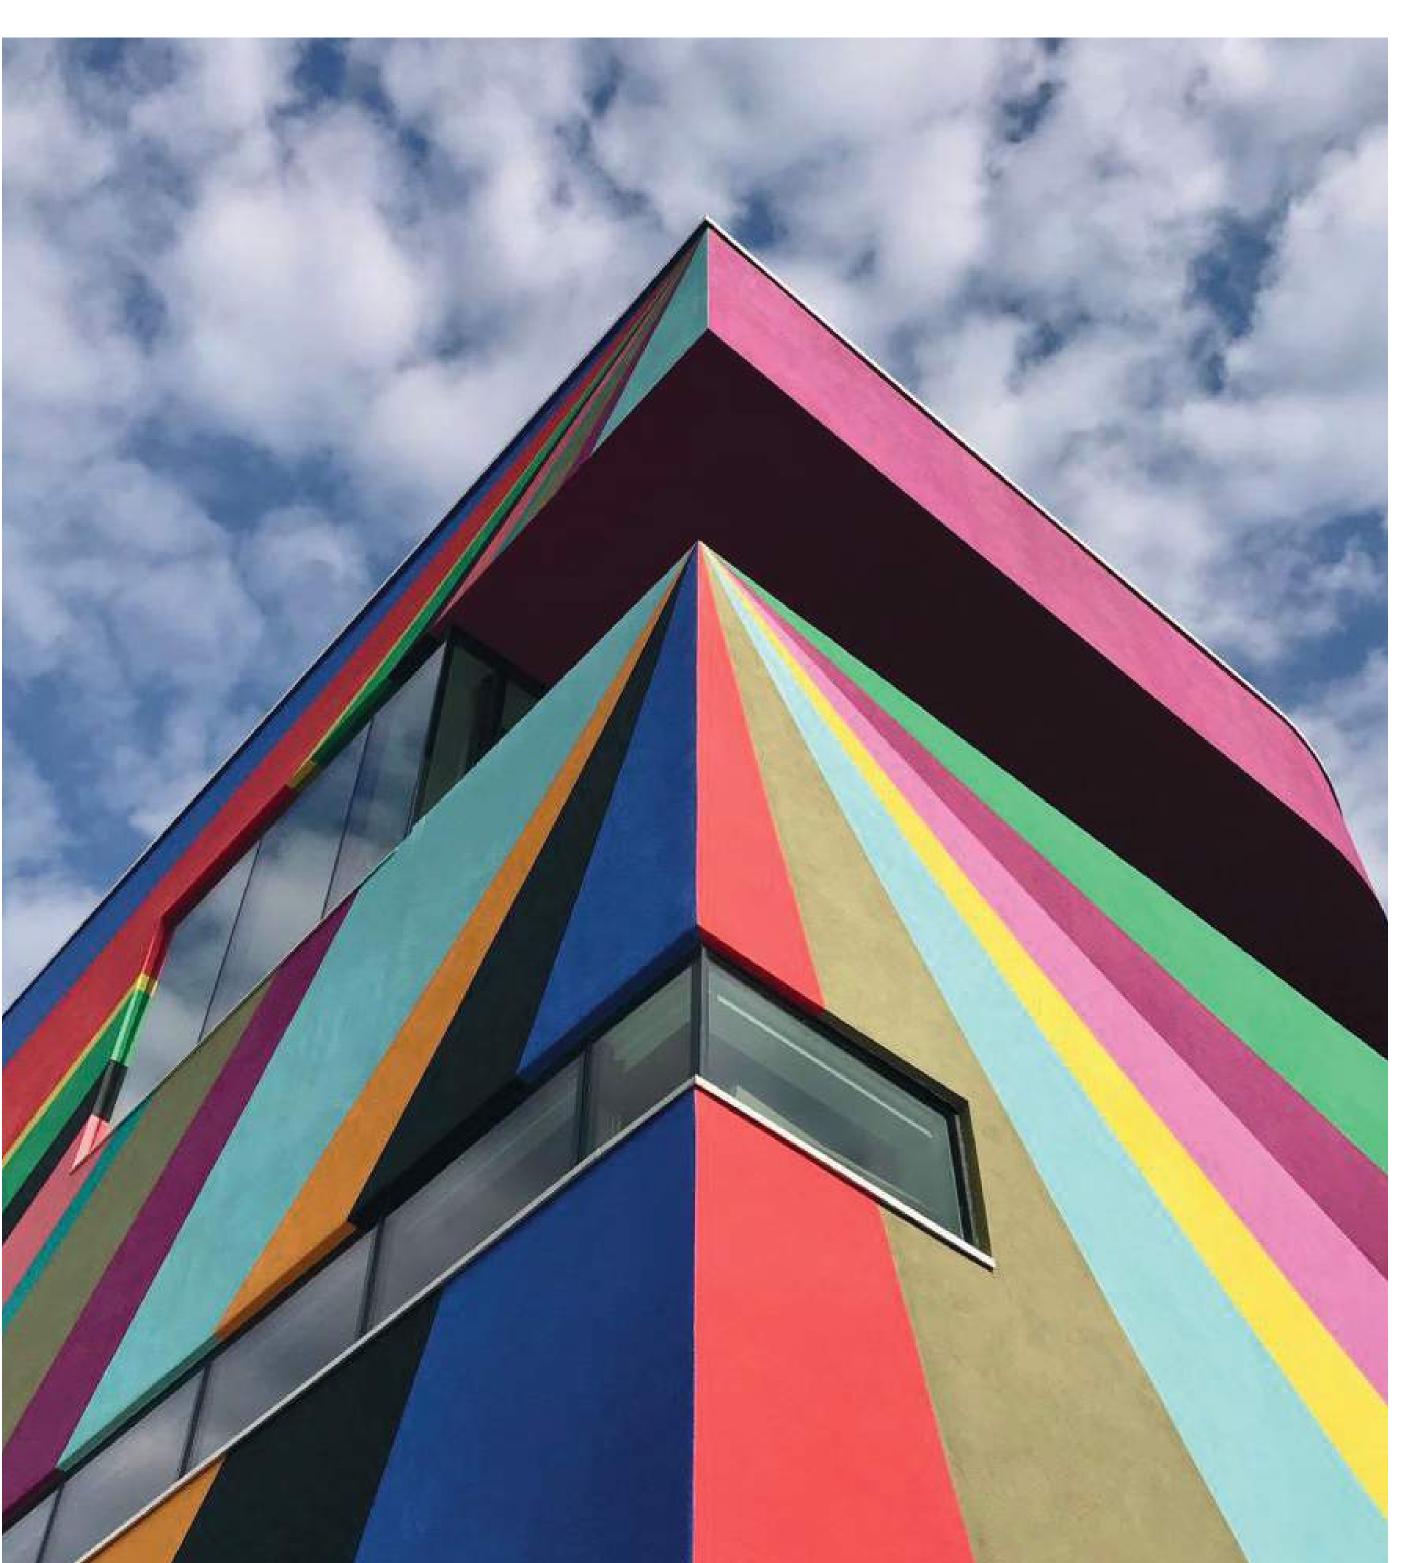

What we do

More than watching paint dry

We understand that every brief is different, so we stay flexible in our approach.

Perhaps you have an exact design in mind that you want painted, perhaps you need ideas and designs to get the ball rolling, perhaps it's a mixture of both?

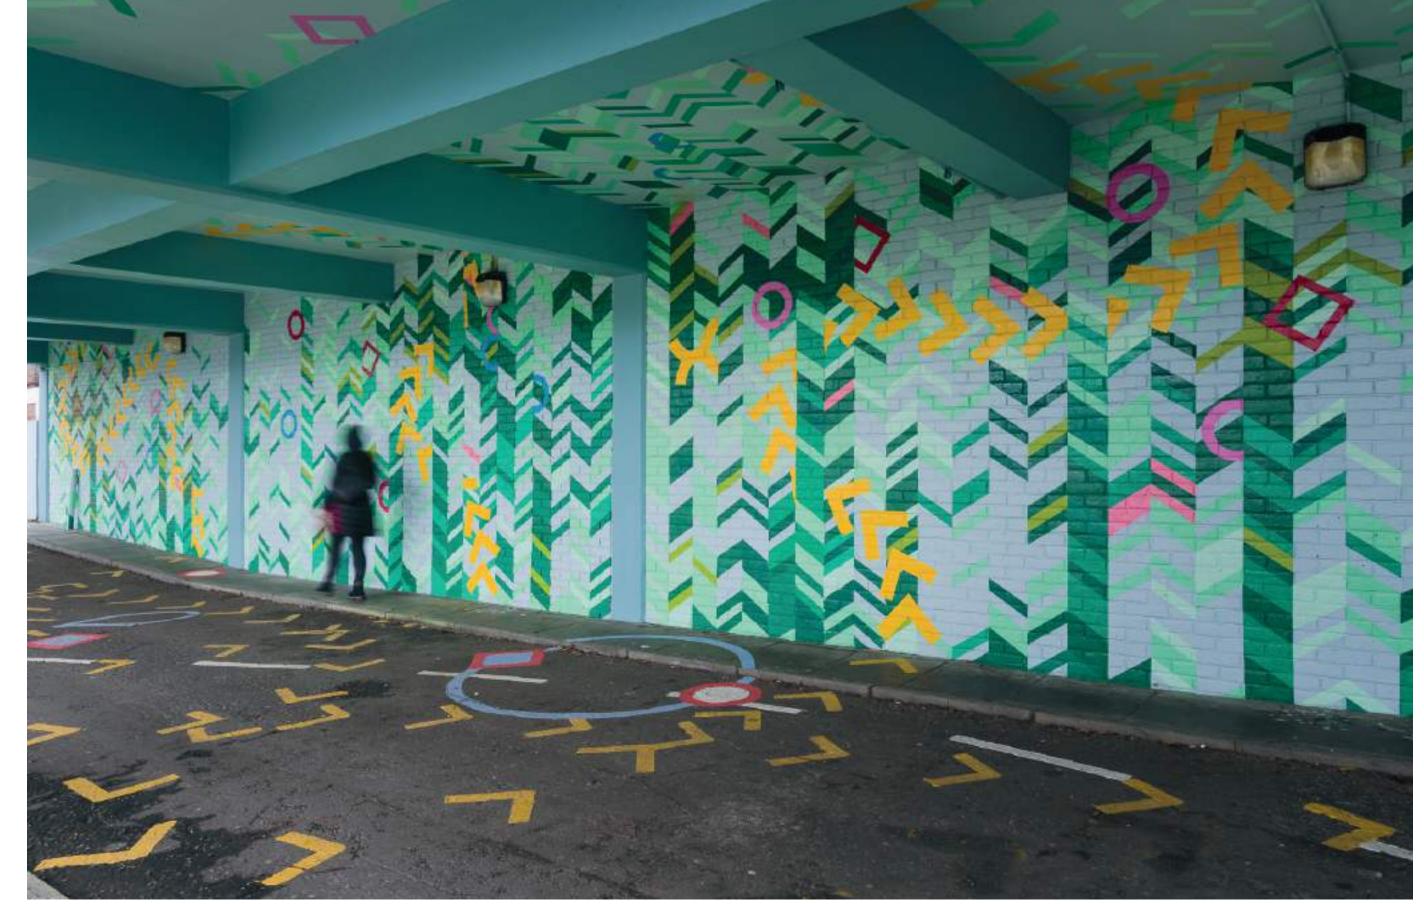

Either way, we are confident we can help. We work with a diverse network of specialists and creatives; this enables us to provide a wide range of creative solutions, finishes, styles, designs and materials for any piece. We also can advise on and implement sealants or protective measures needed to increase the longevity of the work.

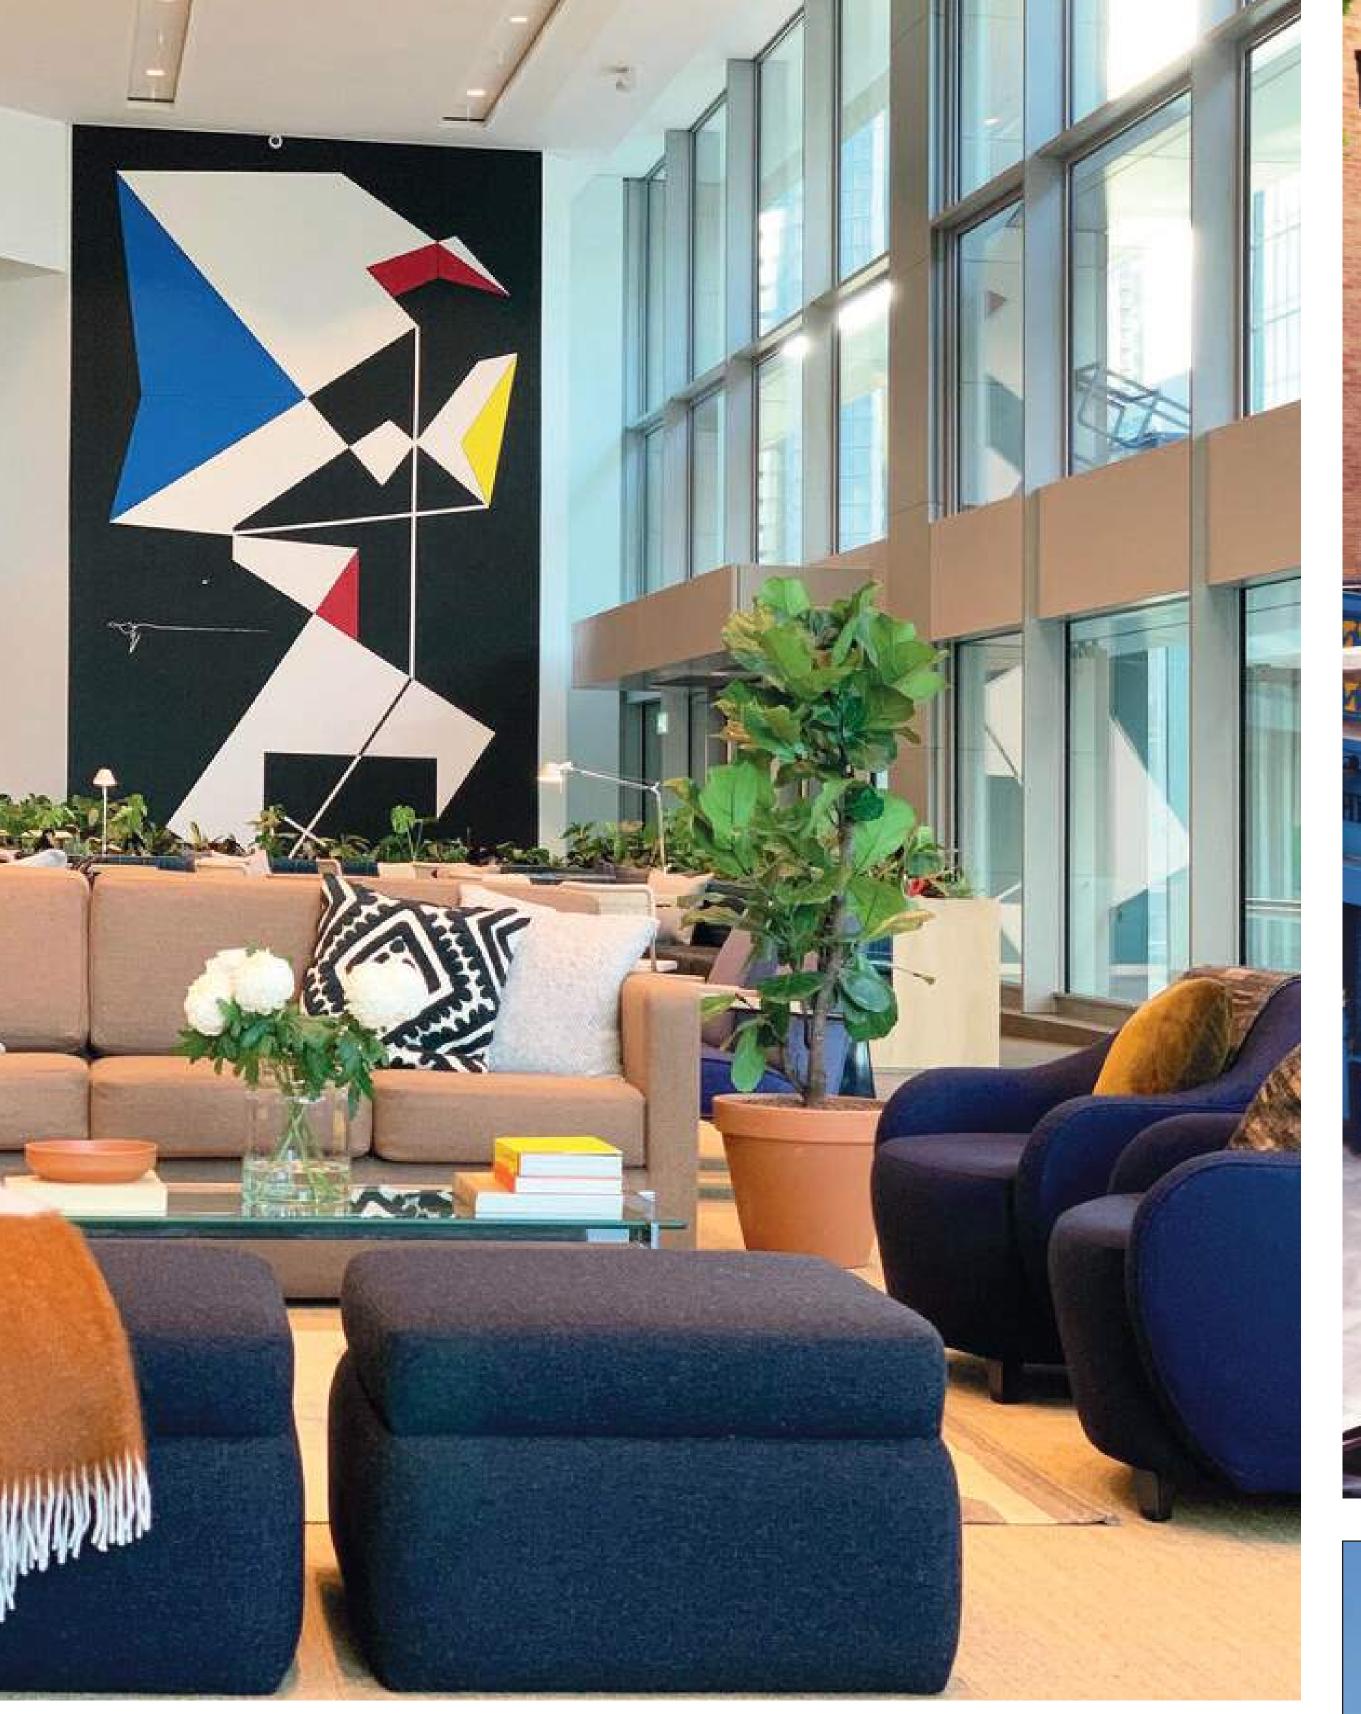

We cover areas such as company logos and branding, traditional hand-painted signage and typography, street art and graffiti, vinyl printing, illustration, live art and public engagement.

We can provide SSOW and RAMS, insurance and any other licence details required for projects. Our team is IPAF trained and registered and we carry out diligent health and safety checks as part of our initial site visit and throughout installation.

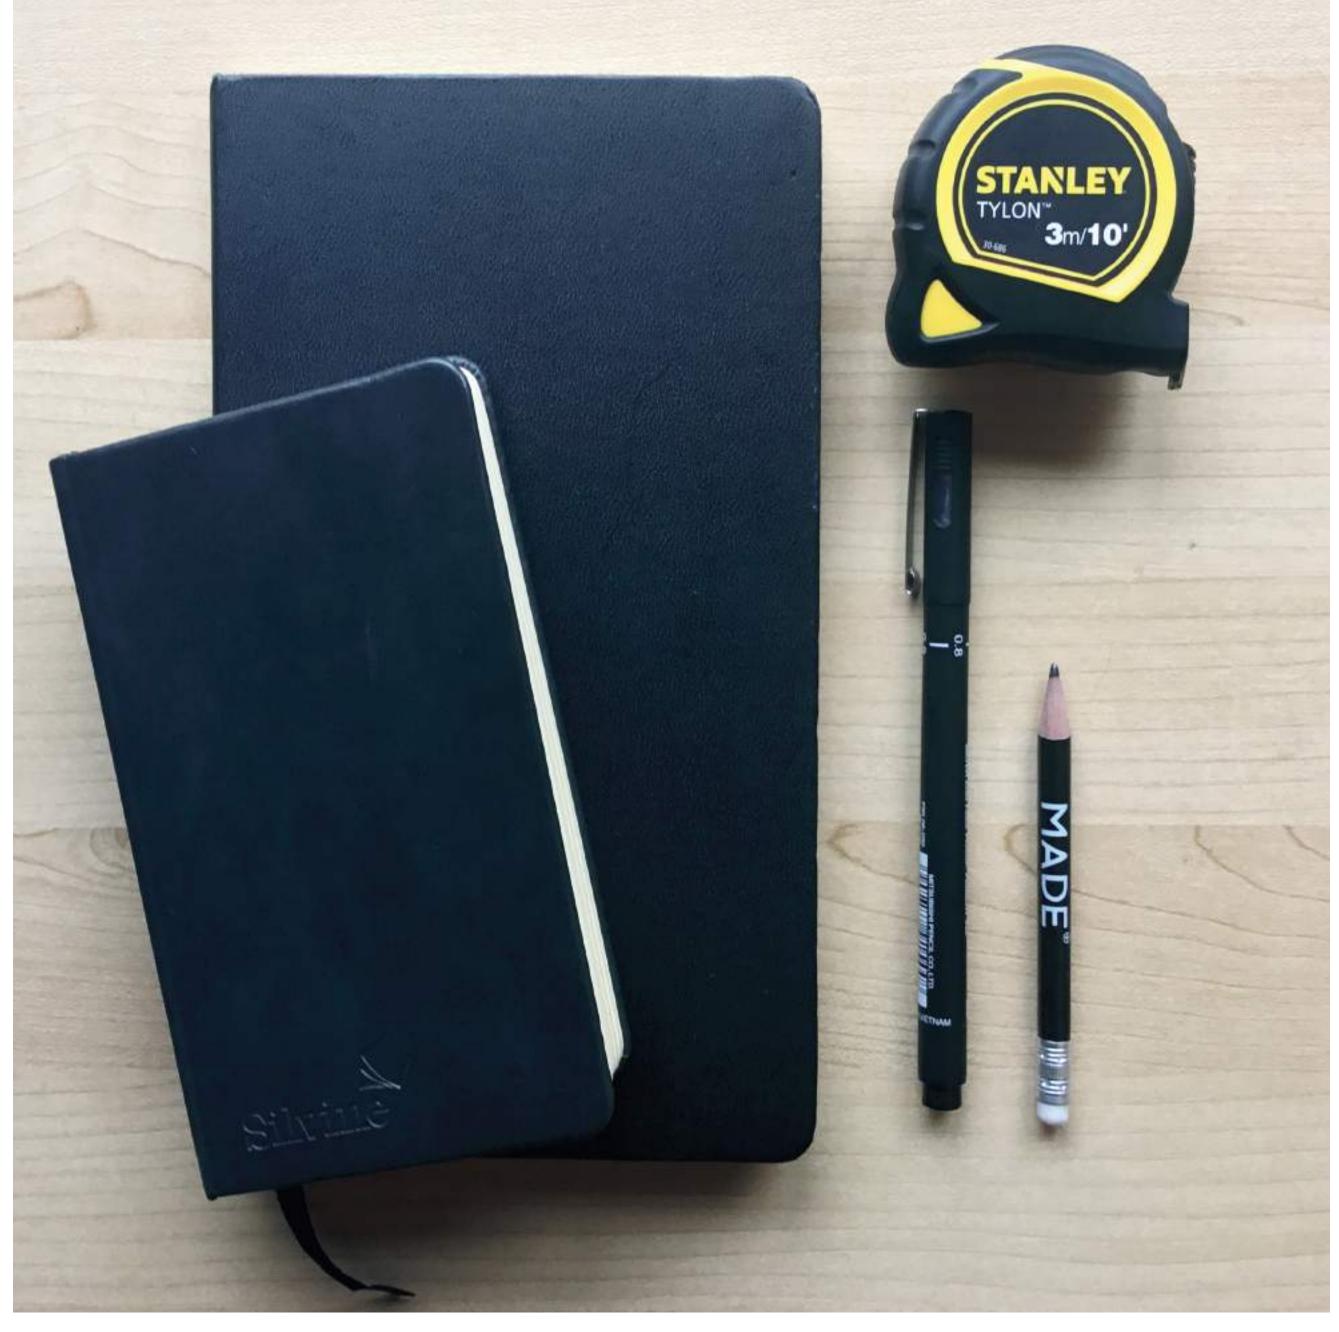

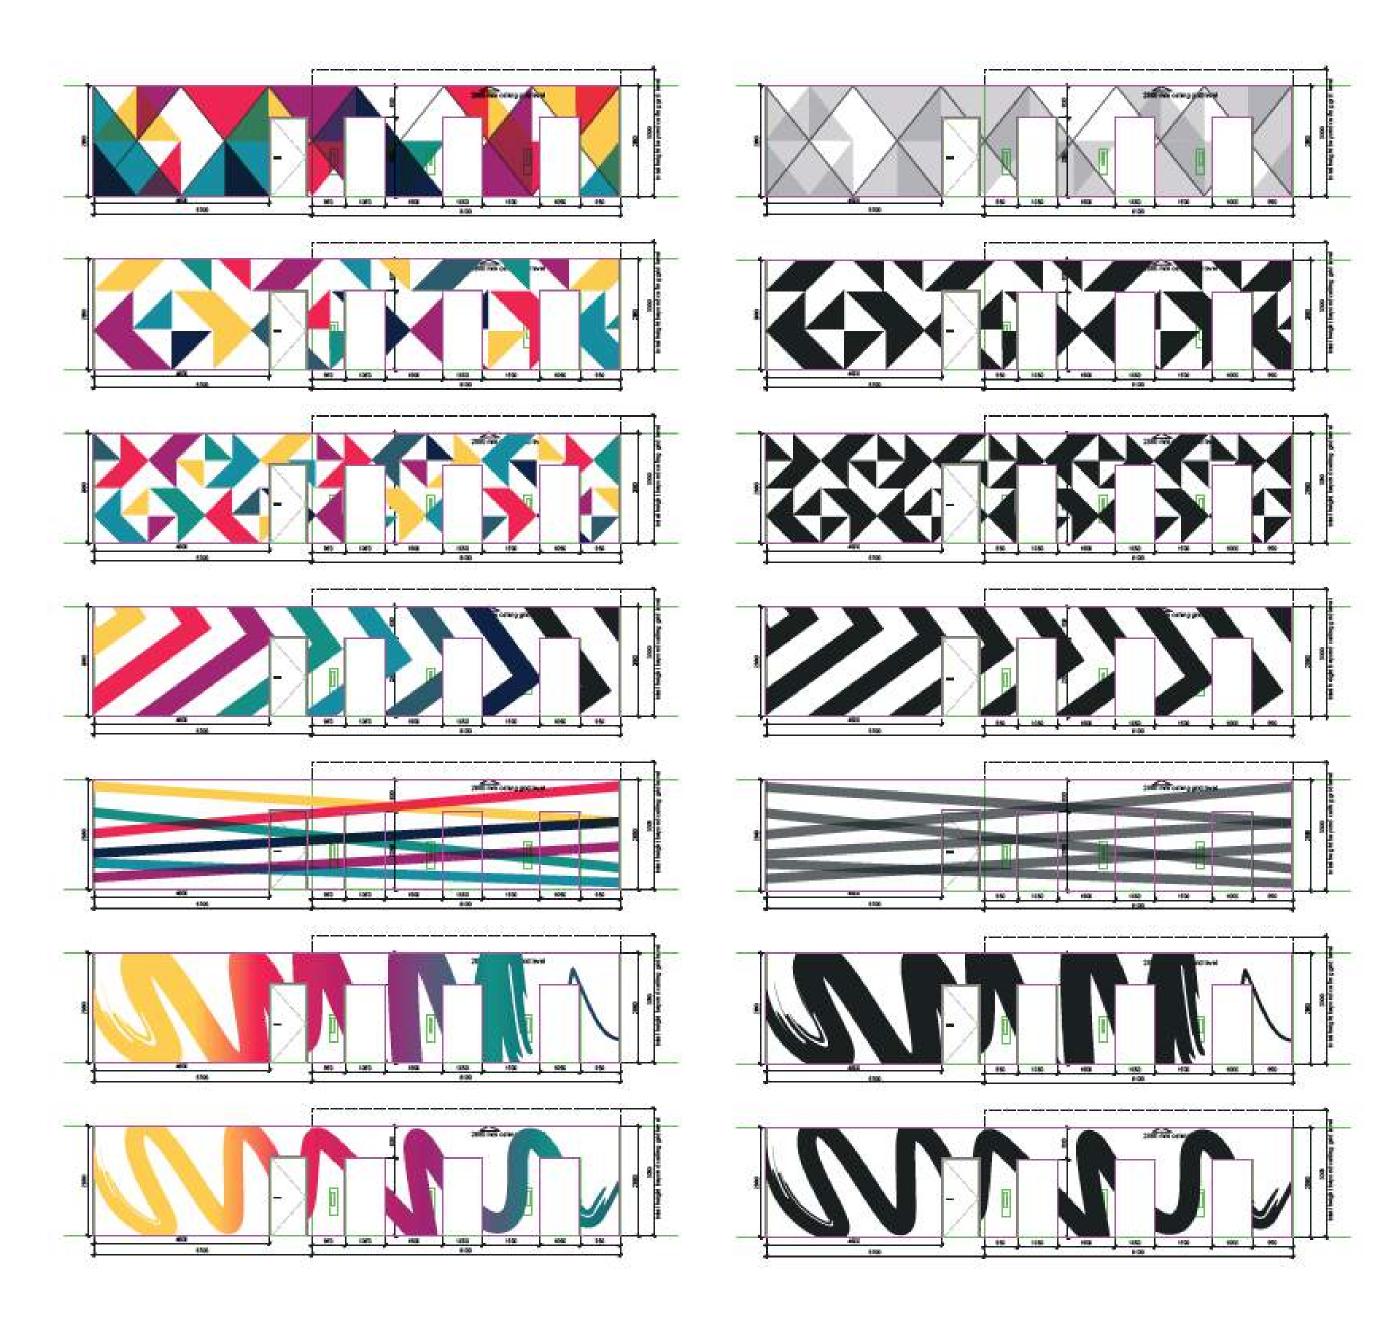

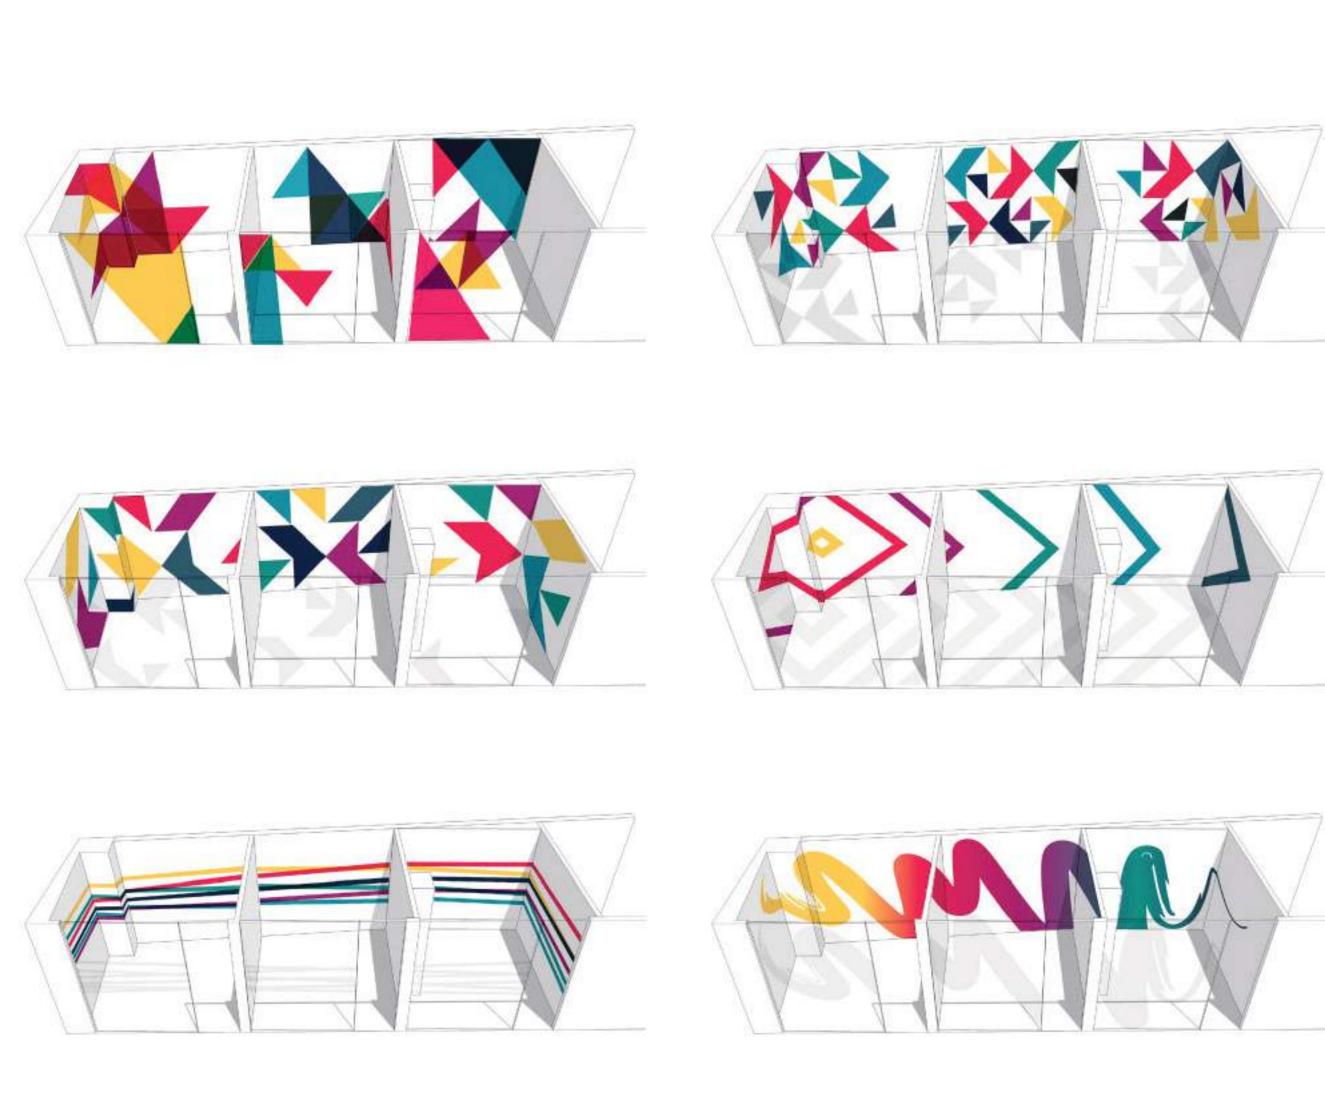

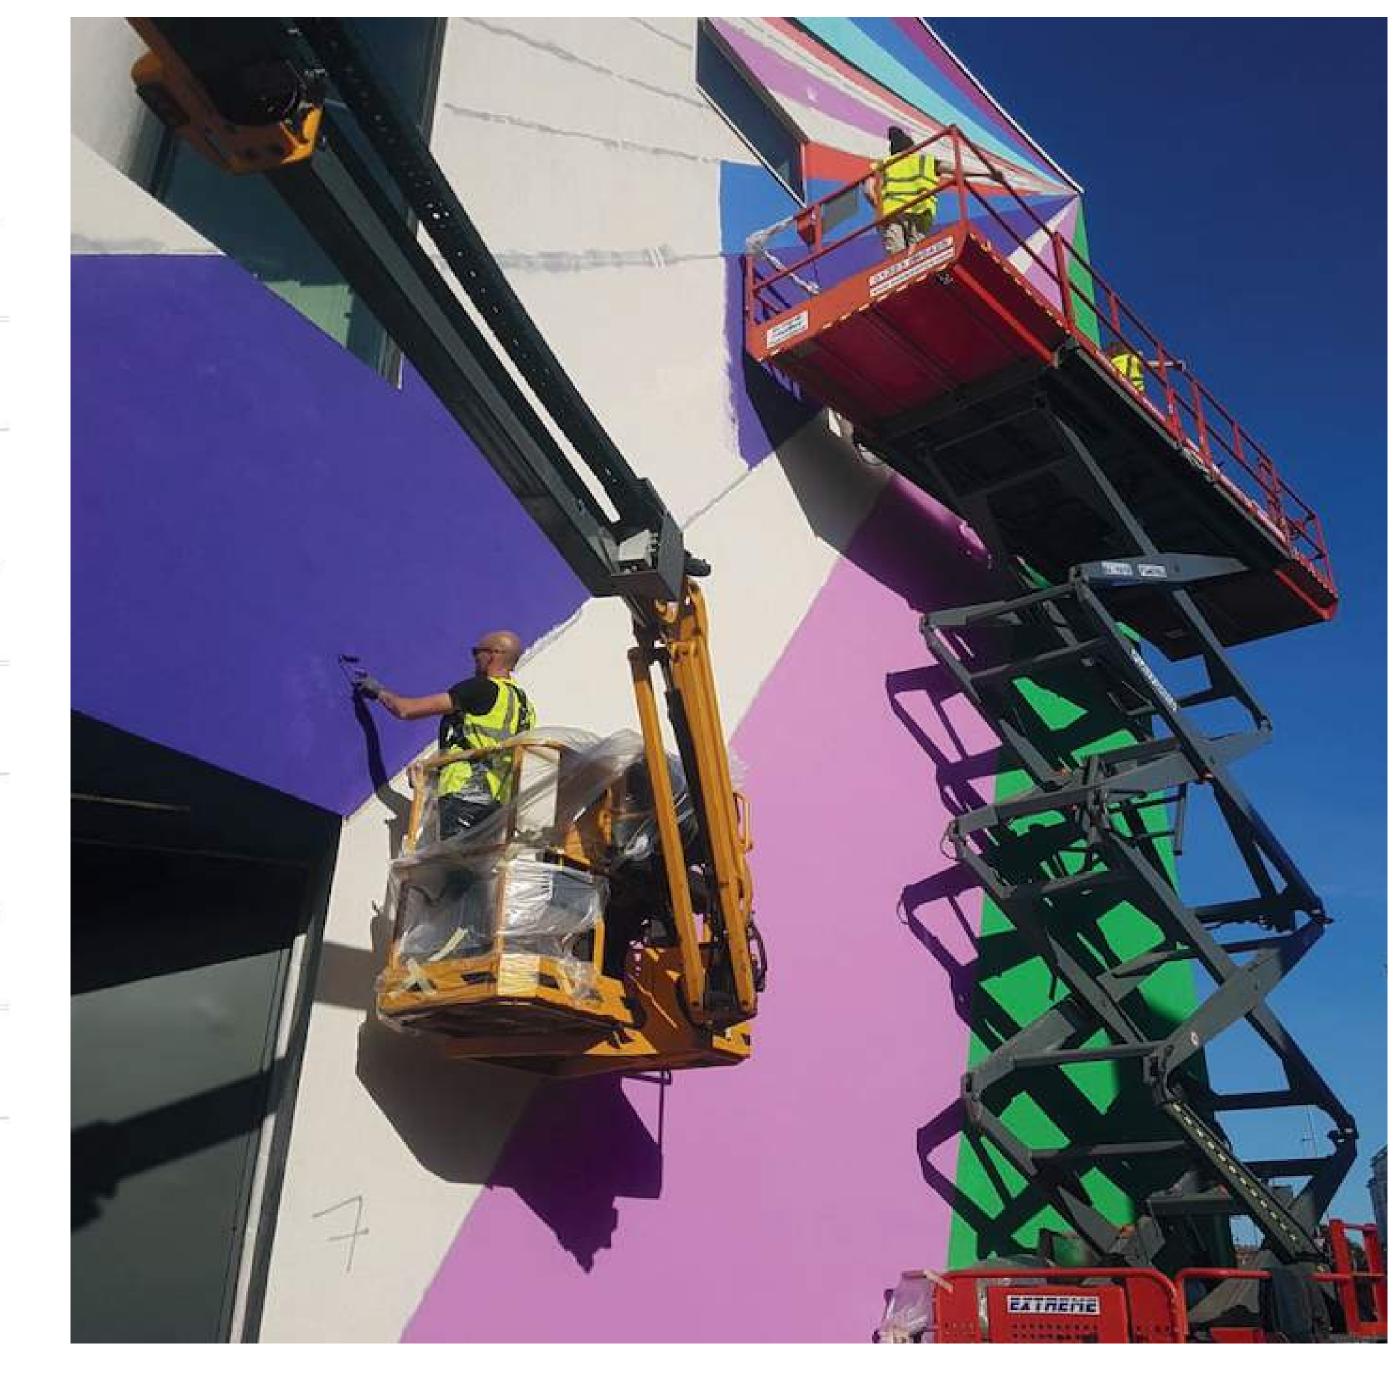

Working Together

Initial contact / Creative Brief

Get in touch and let us know what your thoughts are. Perhaps you have a design in mind or you just want to explore the possibilities of what is achievable.

Either call us or send us an email and we'll be more than happy to go through your project with you.

Site visit

Next we'll arrange a visit. This will enable us If required, we'll create a detailed to gain a clearer understanding on how best design document based on the information to bring the work to life and assess the site or area.

We will need to take into account things such as accessibility, dimensions and measurements, health and saftey any potential preparation that may be needed.

Design document

we've collected. This will include a series of different designs and mock-ups of the space based on the brief so far.

Development

If required, these ideas will then be then developed further based on your initial feedback.

We want to explore all options and finetune the designs with you to ensure the work will be exactly on brief.

Painting / Installation

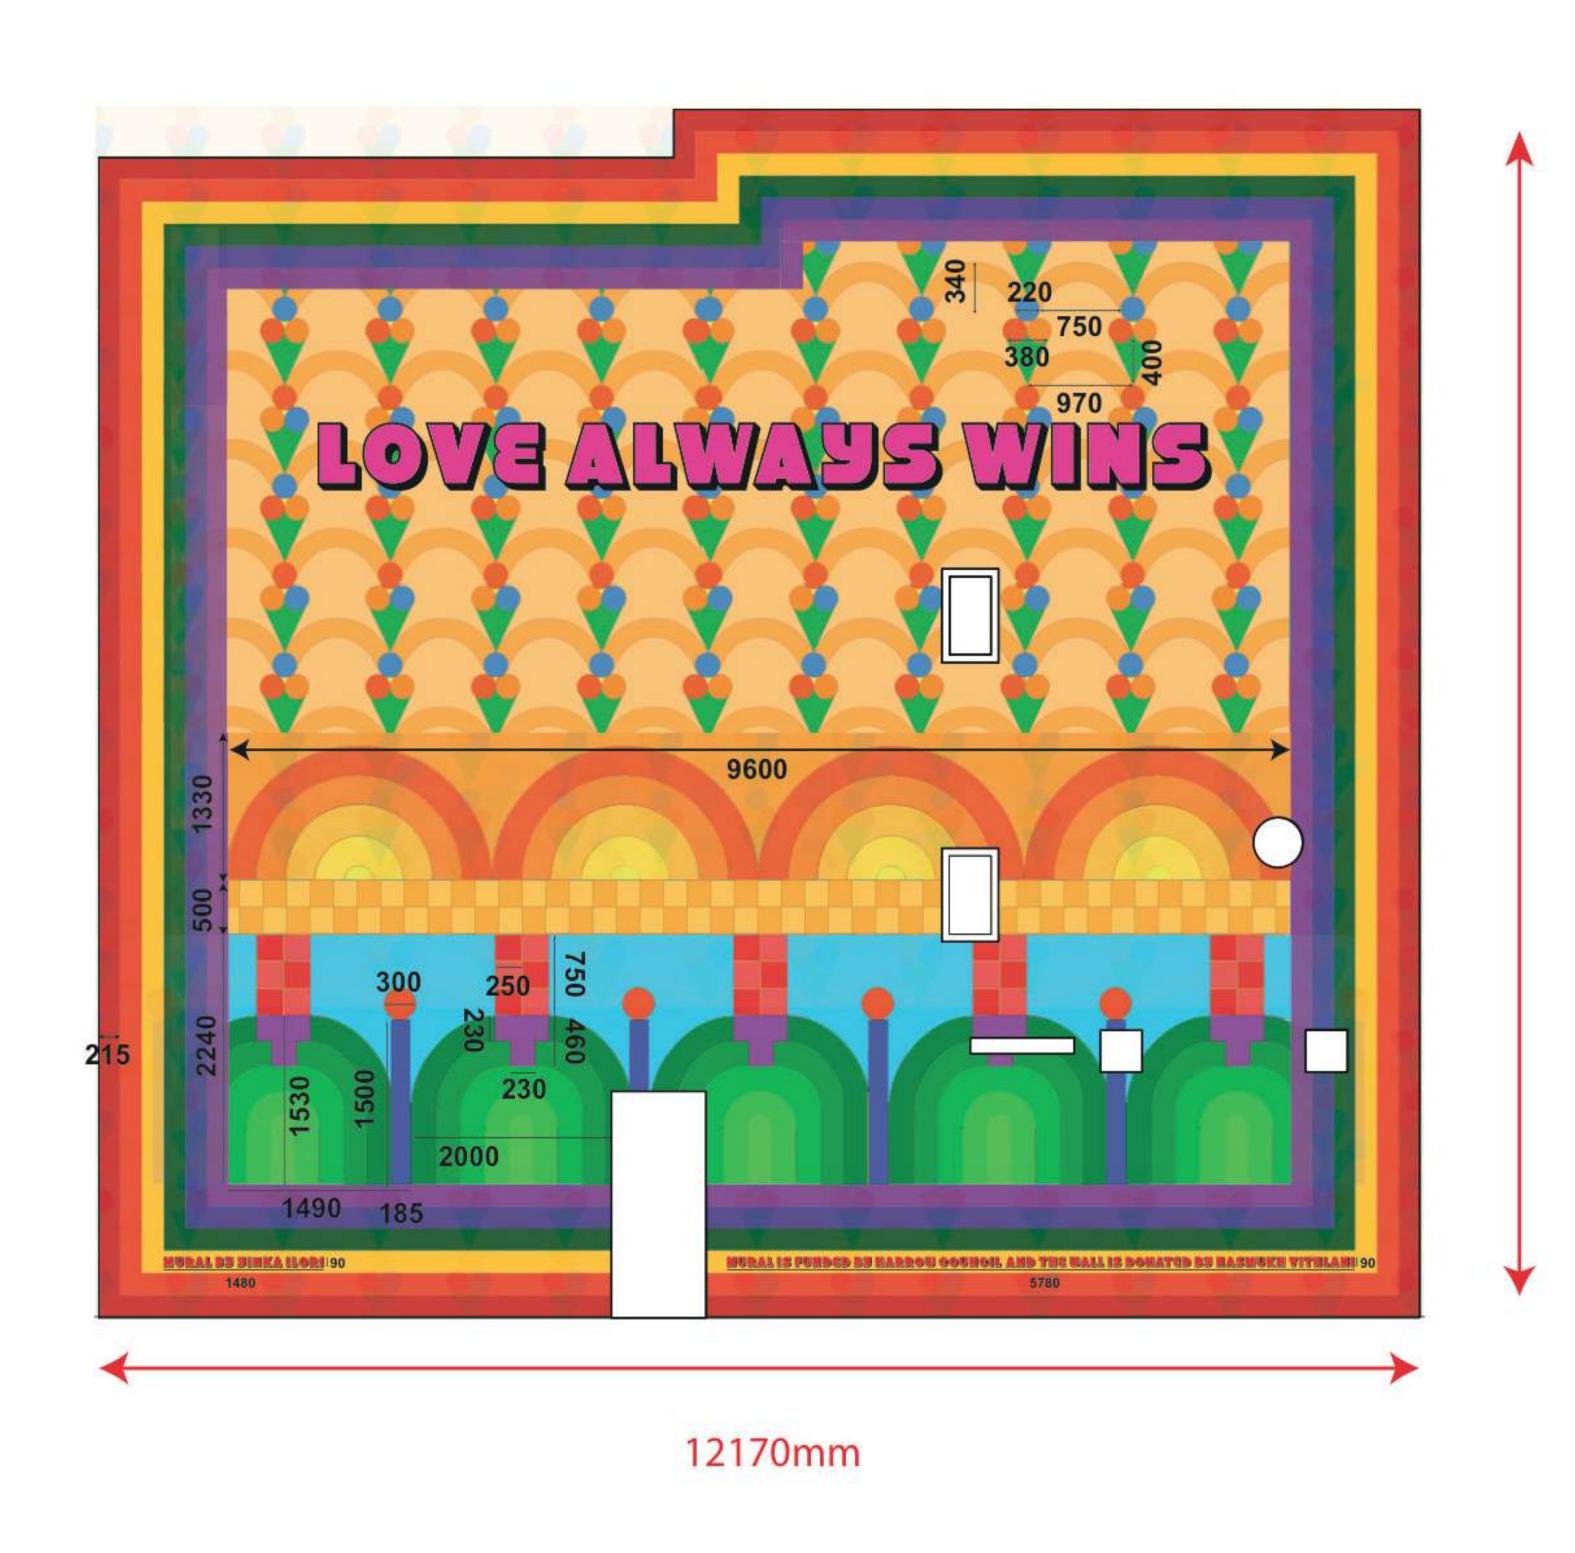

We will provide RAMS, SSOW and any other required paper work before starting. We organise a date for installation and paint. It's that simple

Perhaps you'd like to have the process filmed or documented for social media. Let us know in advance and we can organise that as well.
